

SAFETY BULLETIN #16

To:	All Employees and Sub-Contractors	From:	Steve Brown
Subject:	Health and Safety Notice	Date:	September 2005

Safety Notice:

Please receive copy of a Safety Bulletin from Kone regarding the MX brake on their Monospace MRL range of Lifts.

There is a potential for brake slip should the linings become contaminated and this should be kept under review for any Monospace Lifts under Service.

The Customer / End User will no doubt be sent updated details for their Operating Manual directly by Kone.

Steve
